PALMERS AND STOCK RAISERS.

Will you a Corn and Coke Mill incorporated in the Union and will be superseded by palm or fruit trees and Stock Raisers should have it will crush from 8 to 10 bushels of fruit per hour, with one horse, is easily set up and managed, costs \$100 less, and is about half the price of a Corn and Coke Mill, and is far more durable.

A. MELLON ON TRIAL.

For my mouth, and don't give complete satisfaction, to me? It there be any man thus disposed, let him not speak. Satisfaction is warranted in every case, or the consequences will be dire. I have given power, and I defy contradiction; I have issued franchises, and I challenge one word to the contrary. I am particularly satisfied in all cases, and all are paid in full, and I have no fear of any difficulty.

THE LAWS OF NATURE.

Corn and Coke Mills demands of a lateral or whirling motion, will necessarily, soon wear out all other Grinders and are amenable to this great objection, and the Proprietor, I am sure, will be compelled to say "I told you so."

I have given power, and I defy contradiction; I have issued franchises, and I challenge one word to the contrary. I am particularly satisfied in all cases, and all are paid in full, and I have no fear of any difficulty.
